

Members of the NAB (ClearChannel, Infinity, etc) have already reduced the available selection of quality programming where I live, Los Angeles, also the home of the second largest media market in the nation. I know Mr. Powell et al are further bent to appease these conglomerates, but please, as a US citizen concerned about the limited access I already have when driving in my car, reject the NBA's petition 04-160. I pay \$10.00 a month for this freedom, I'd be willing to pay double if that's what it takes to maintain this liberty.
Regards,

Peter Krusic
